# SURFACE ANATOMY OF THE NECK

Angle of mandible

**Anterior cervical region**  
(anterior triangle)

Laryngeal prominence

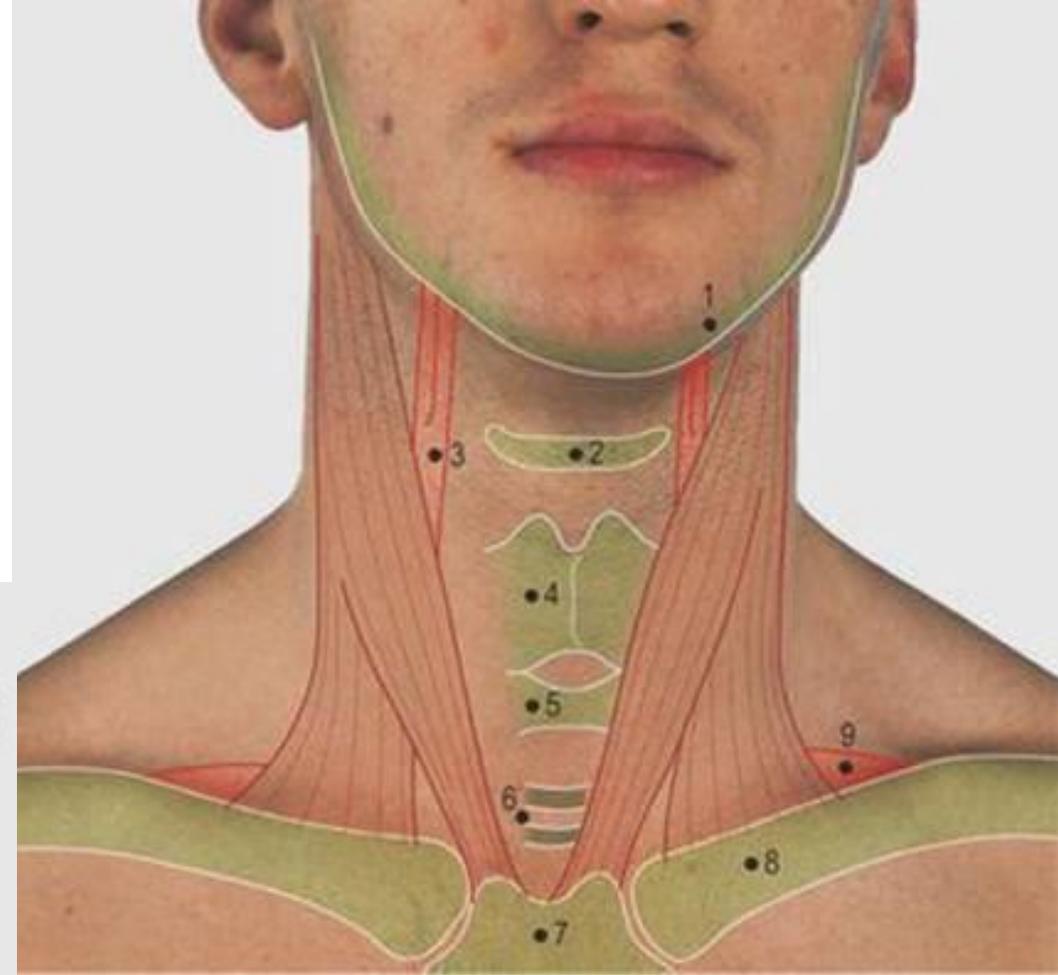

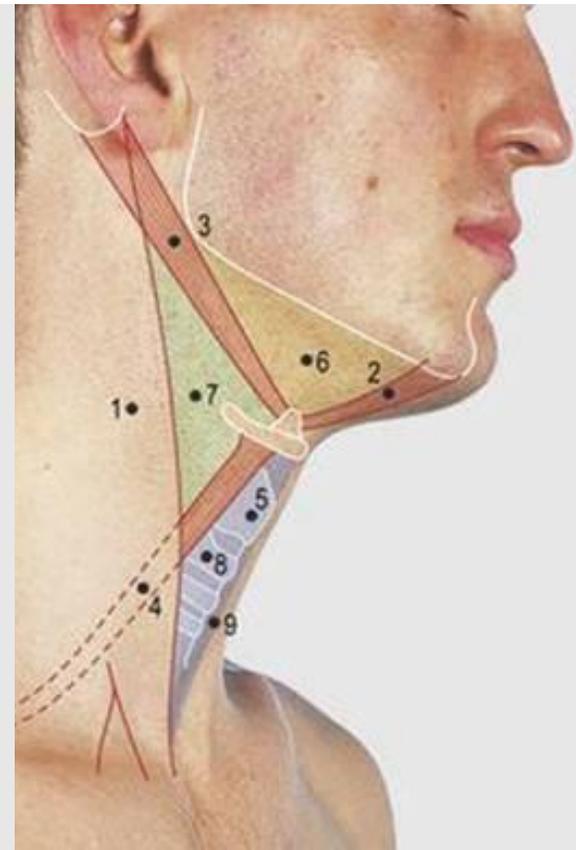

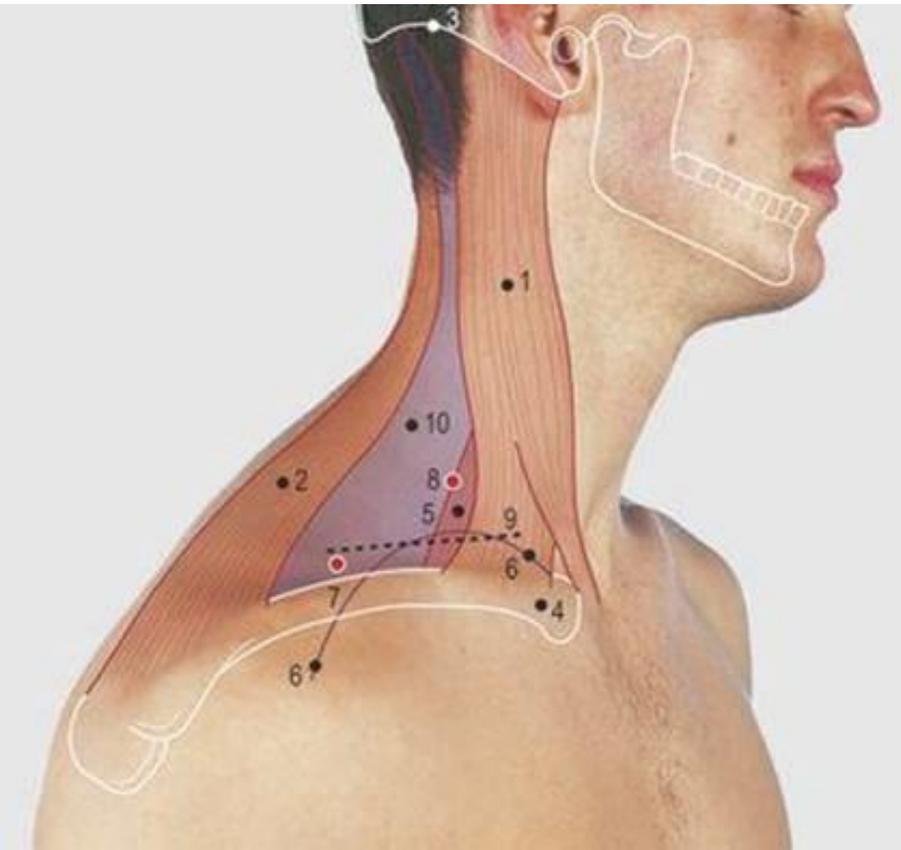

Sternal head } **Sternocleido**  
Clavicular head } **mastoid**

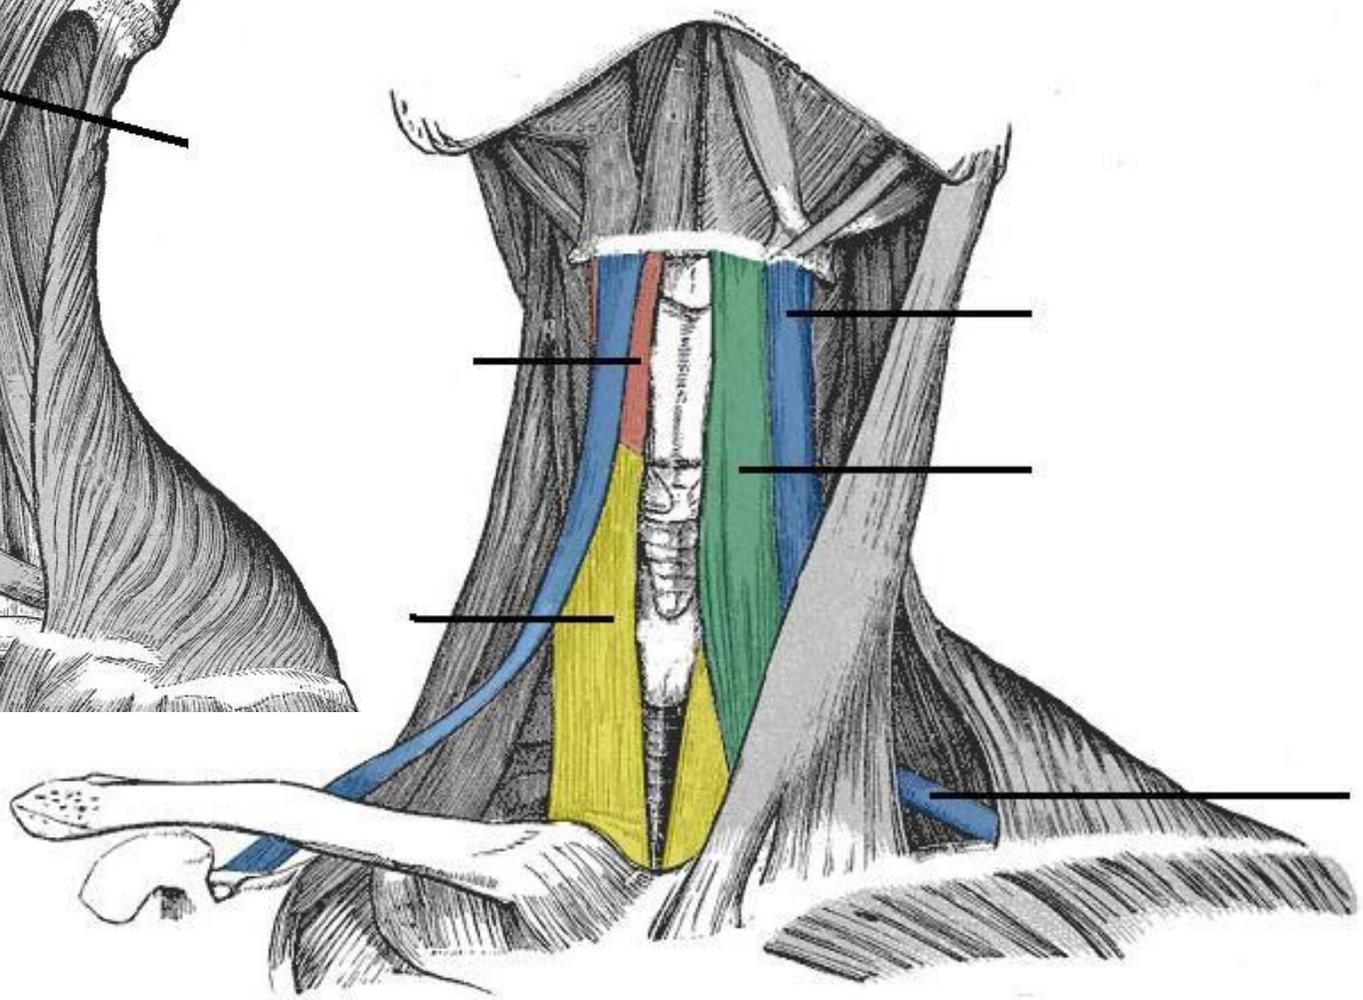

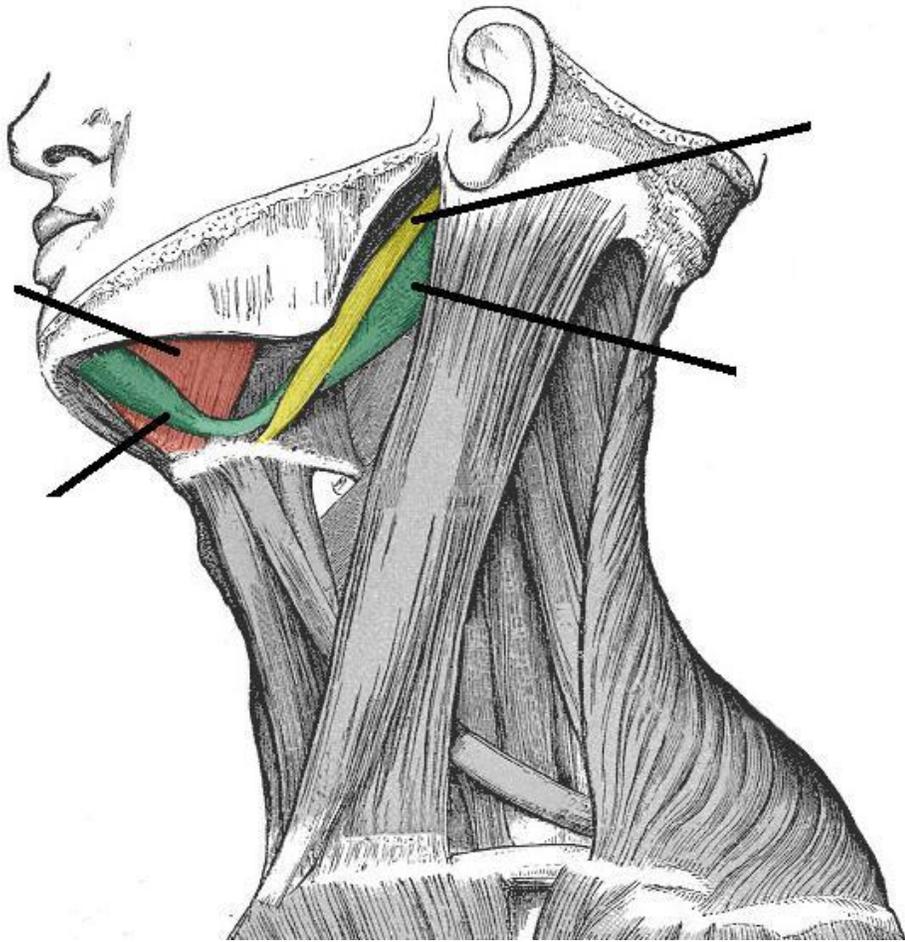

Sternal end of clavicle

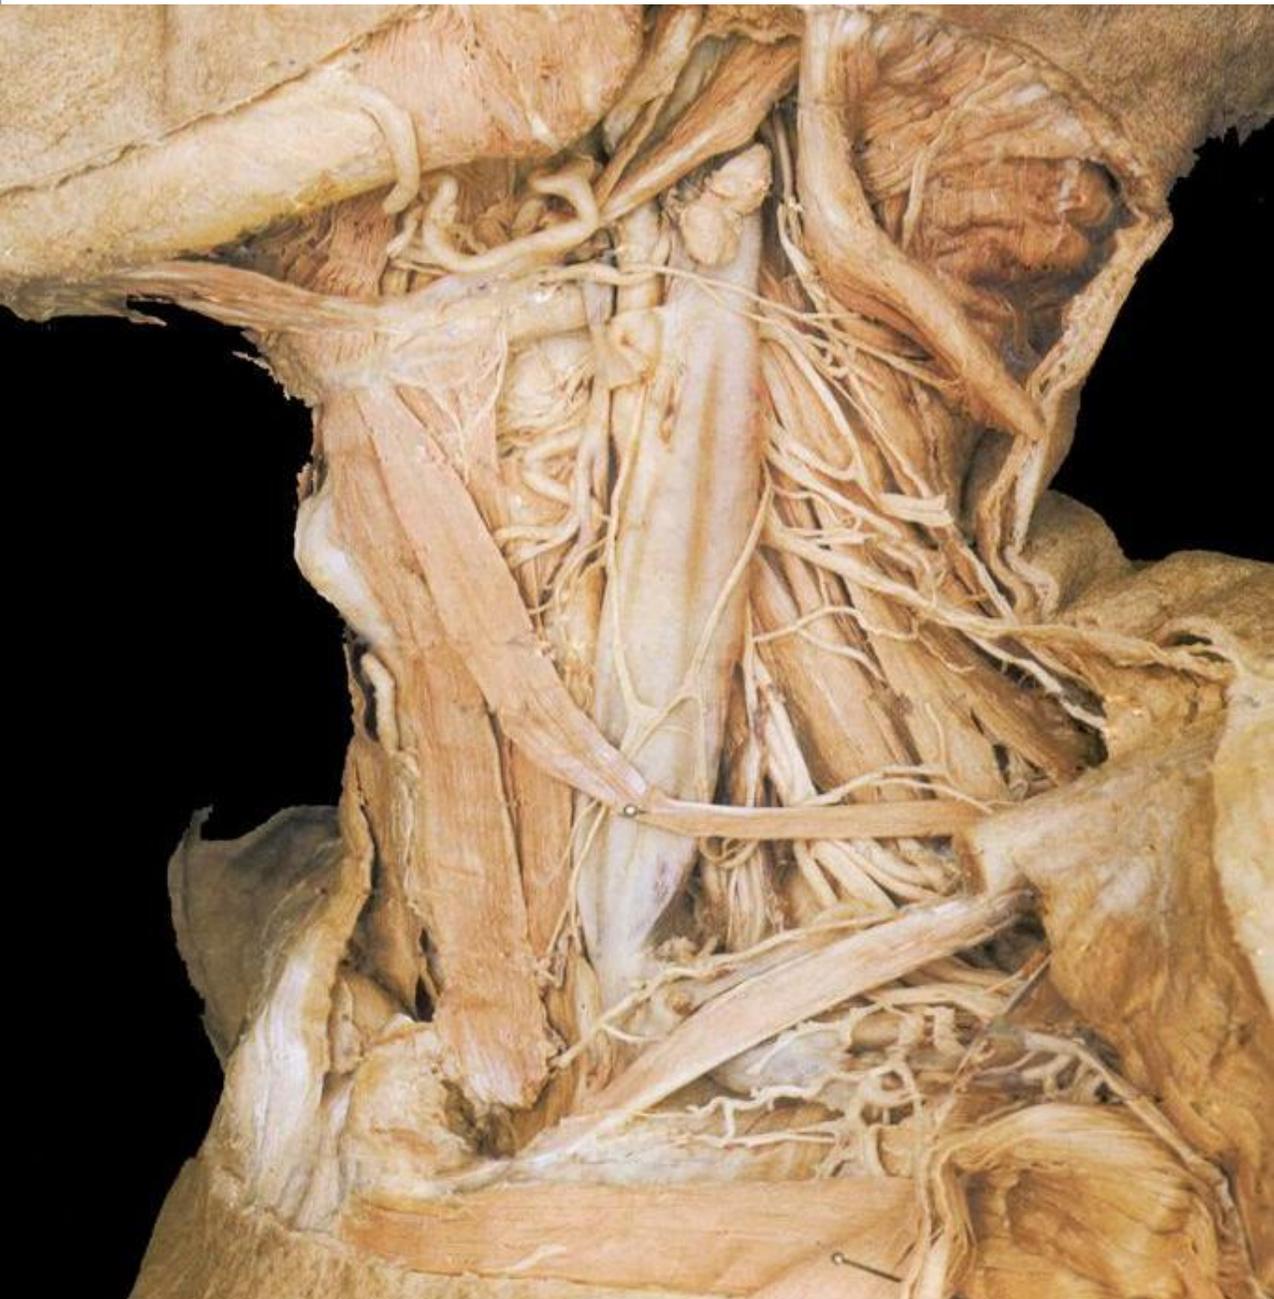

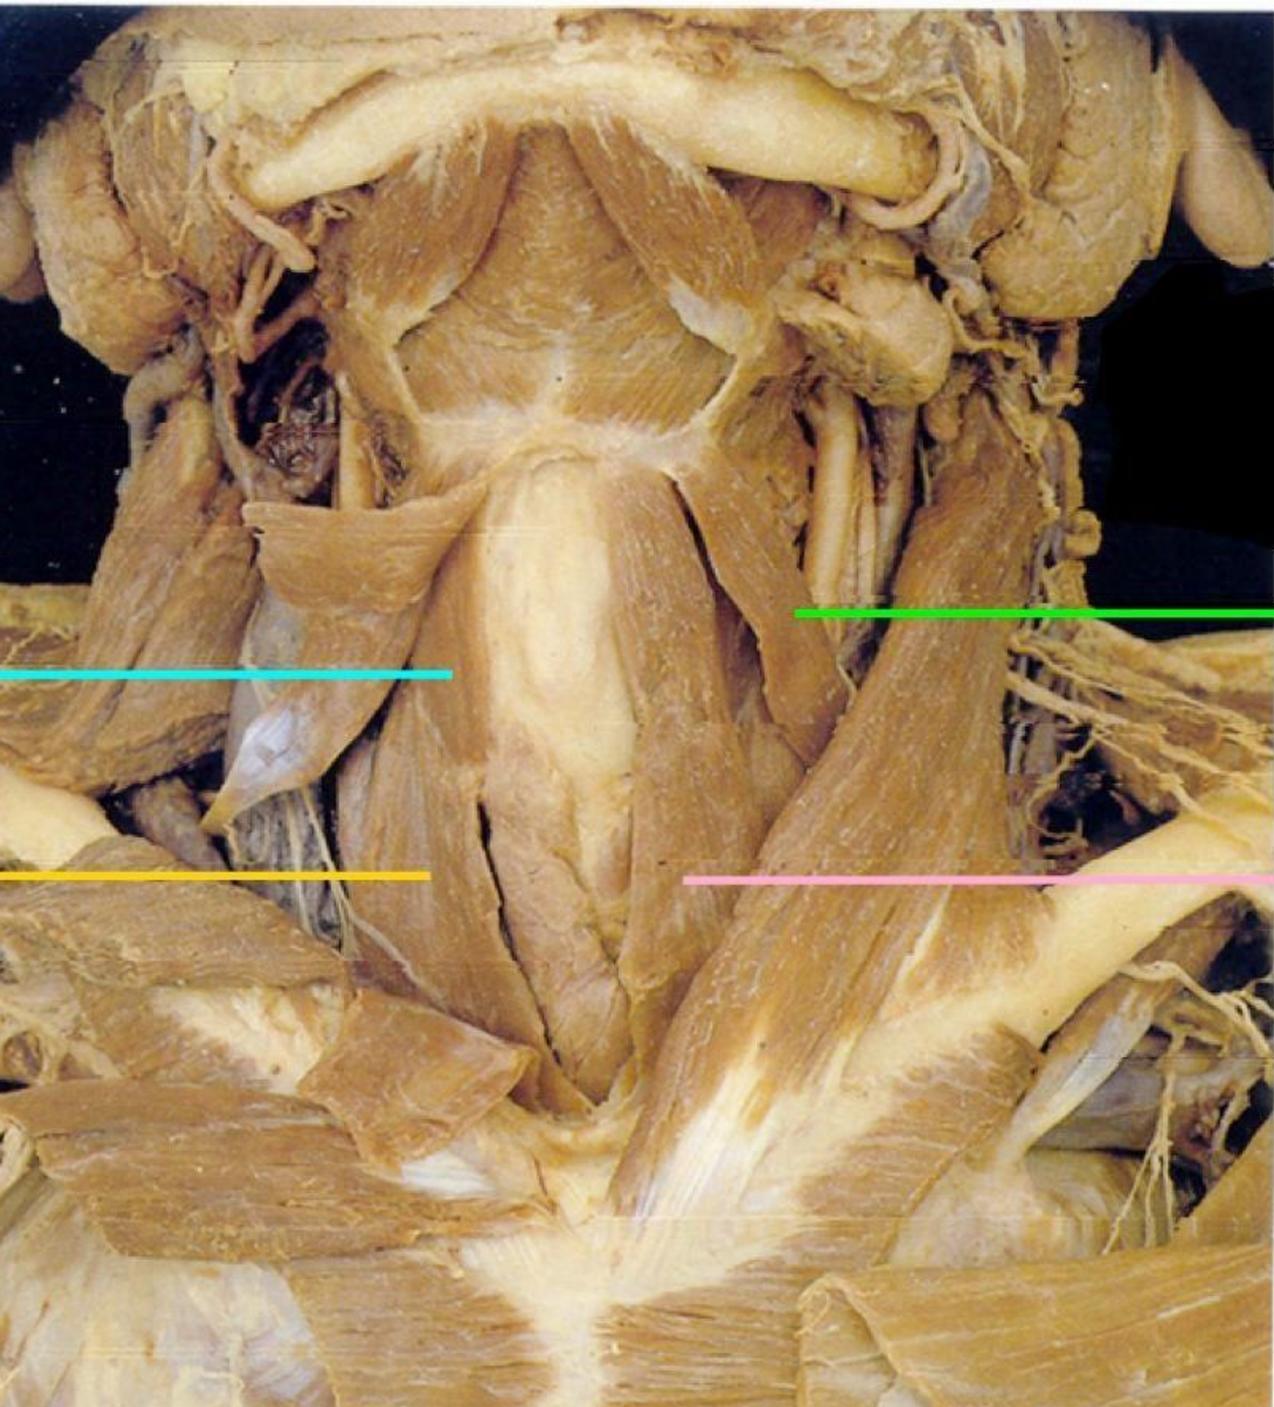

Jugular notch

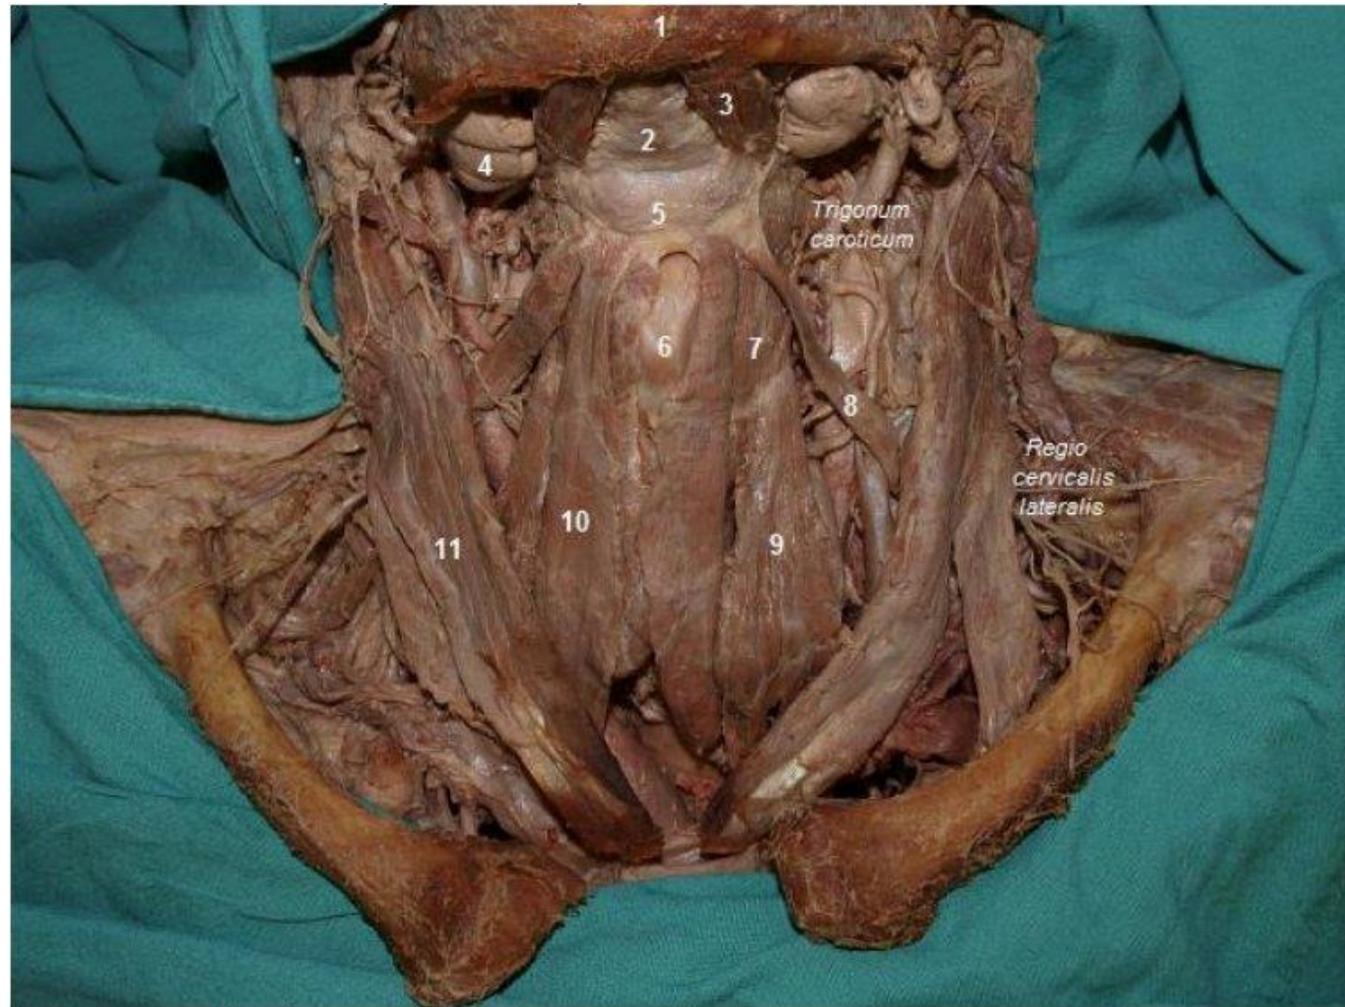

Descending part  
of trapezius

Lateral cervical  
region  
(posterior triangle)

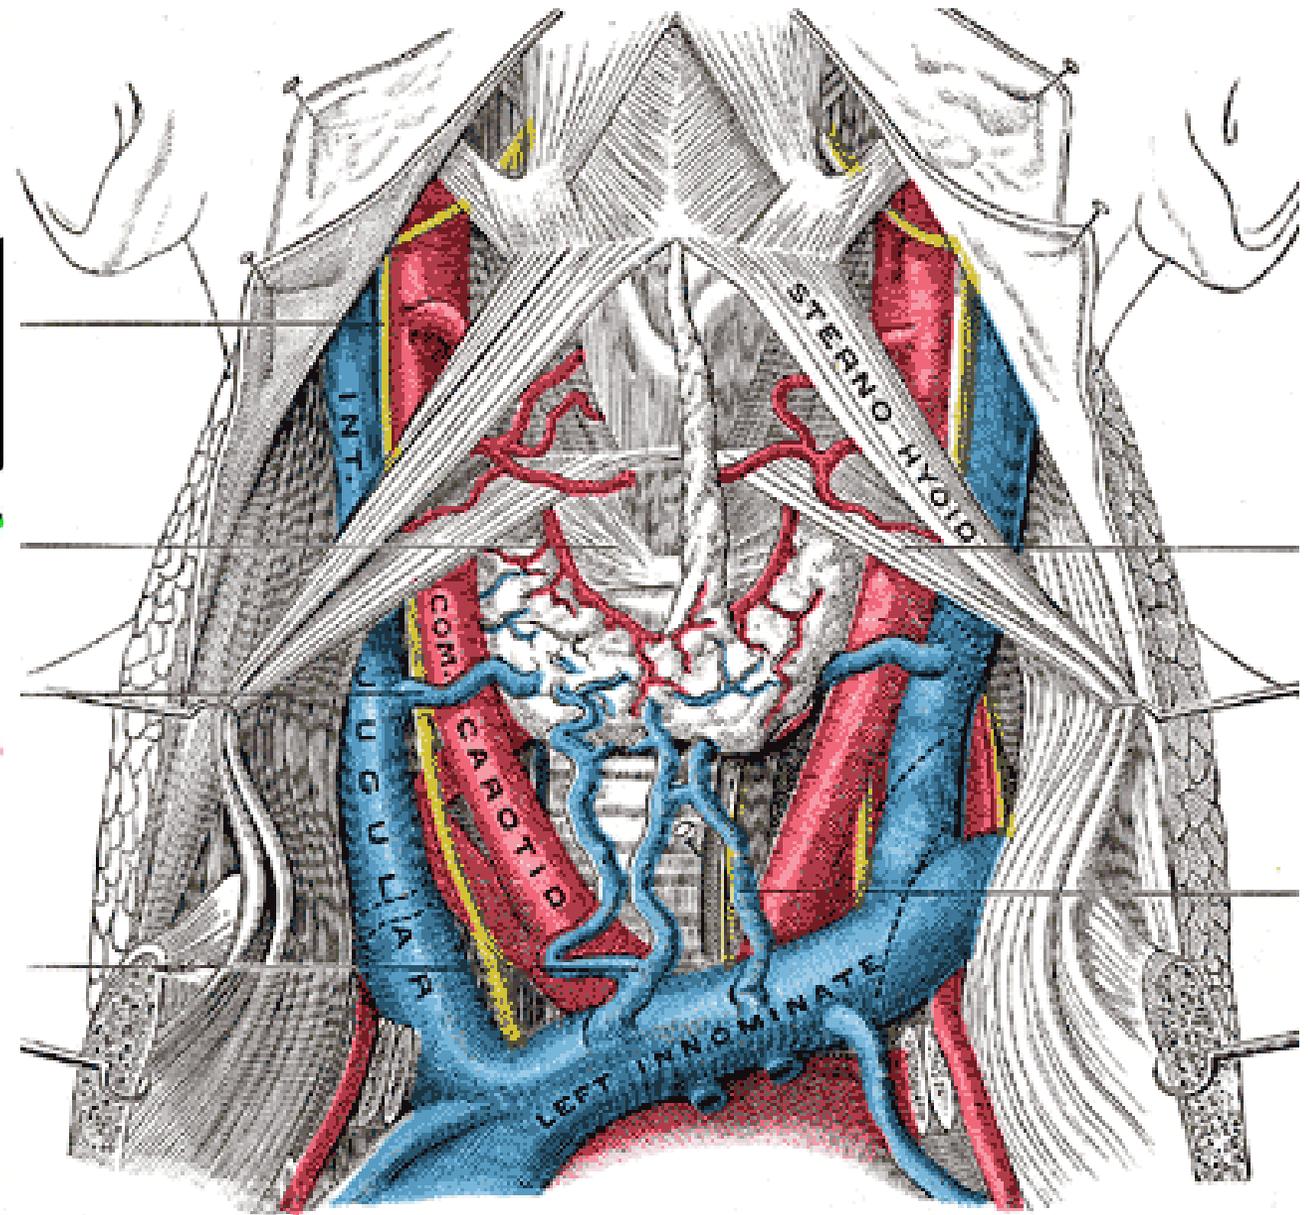

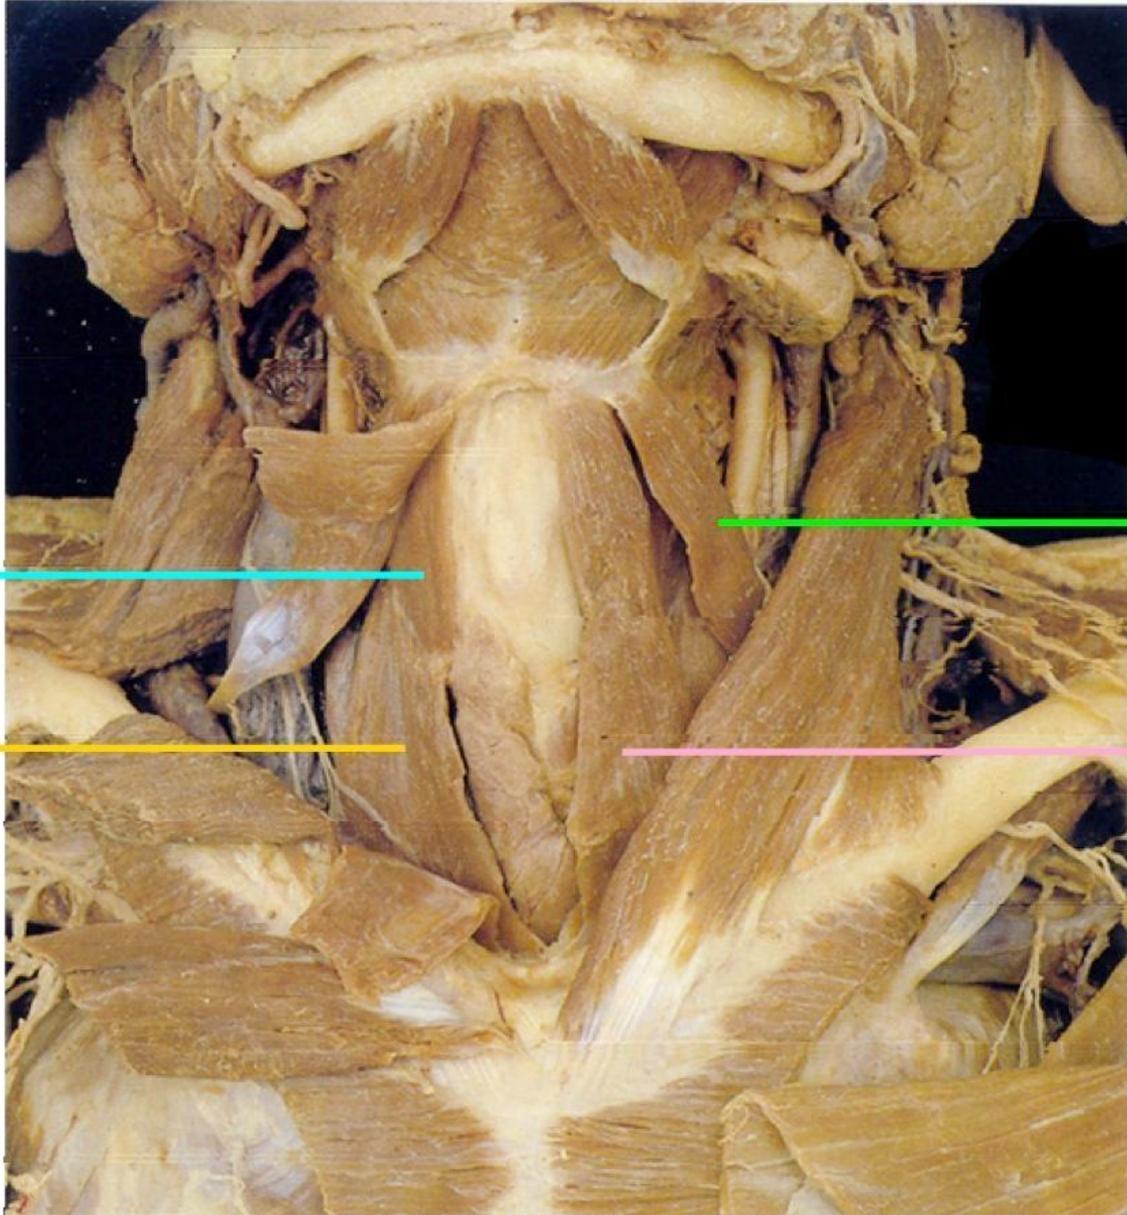

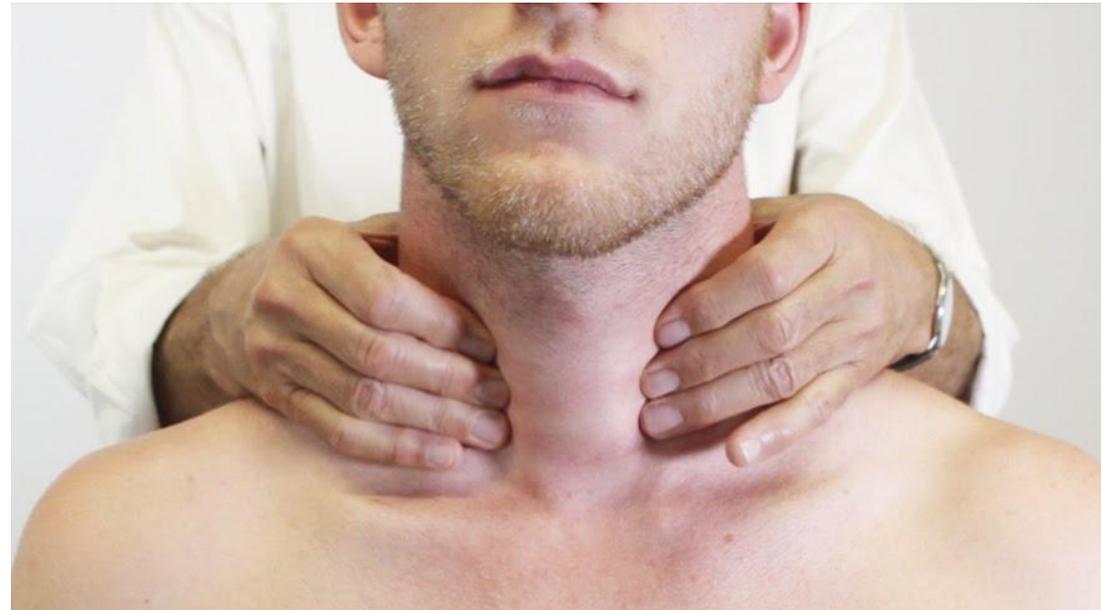

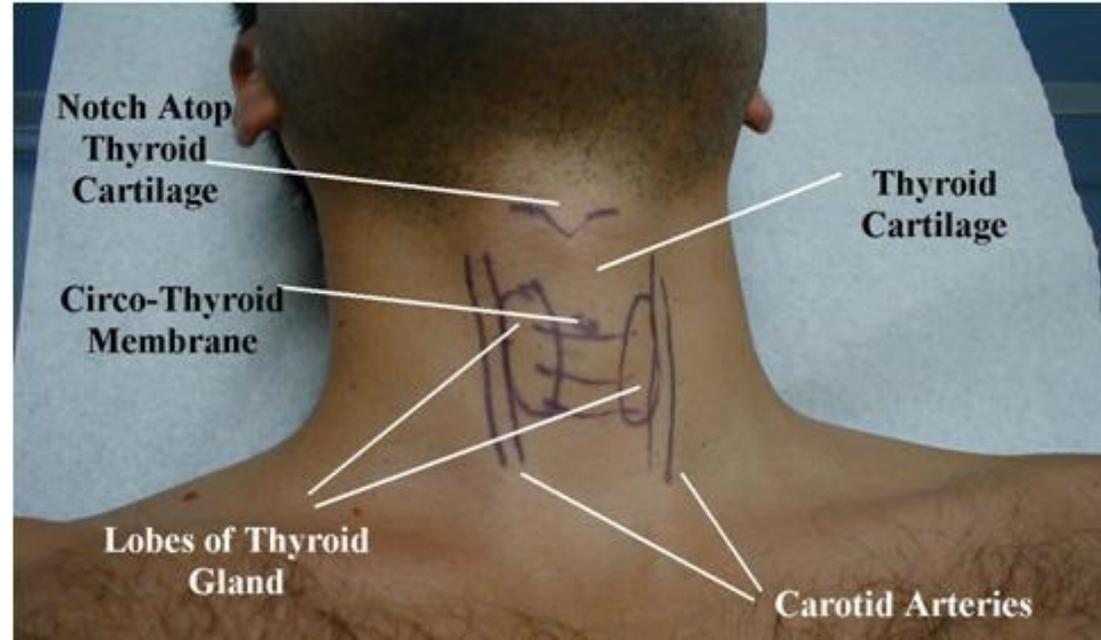

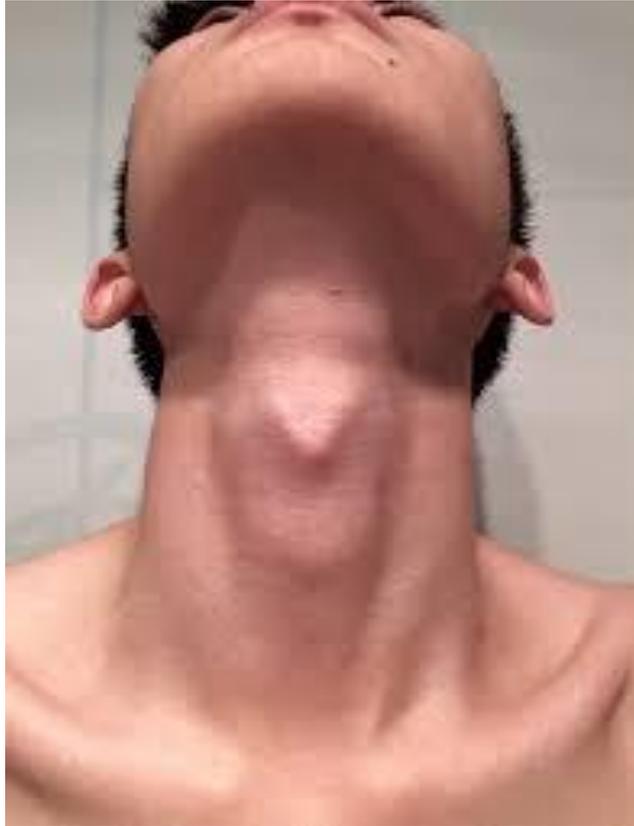

- 1 – mandibula
- 2 – m. mylohyoideus
- 3 – venter anterior m. digastrici
- 5 – os hyoideum
- 6 – cartilago thyroidea

- 7 – m. thyrohyoideus
- 8 – m. omohyoideus
- 9 – m. sternothyroideus
- 10 – m. sternohyoideus

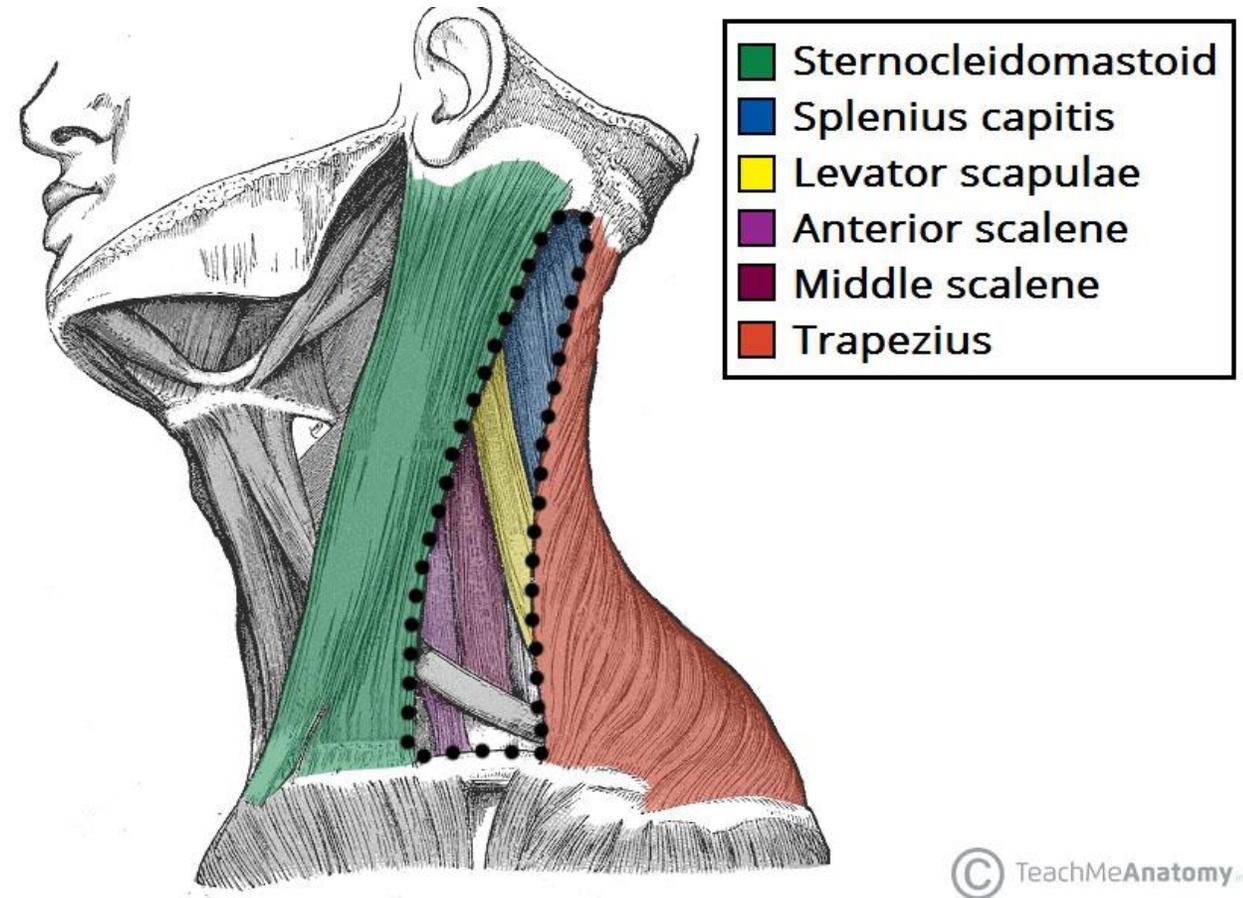

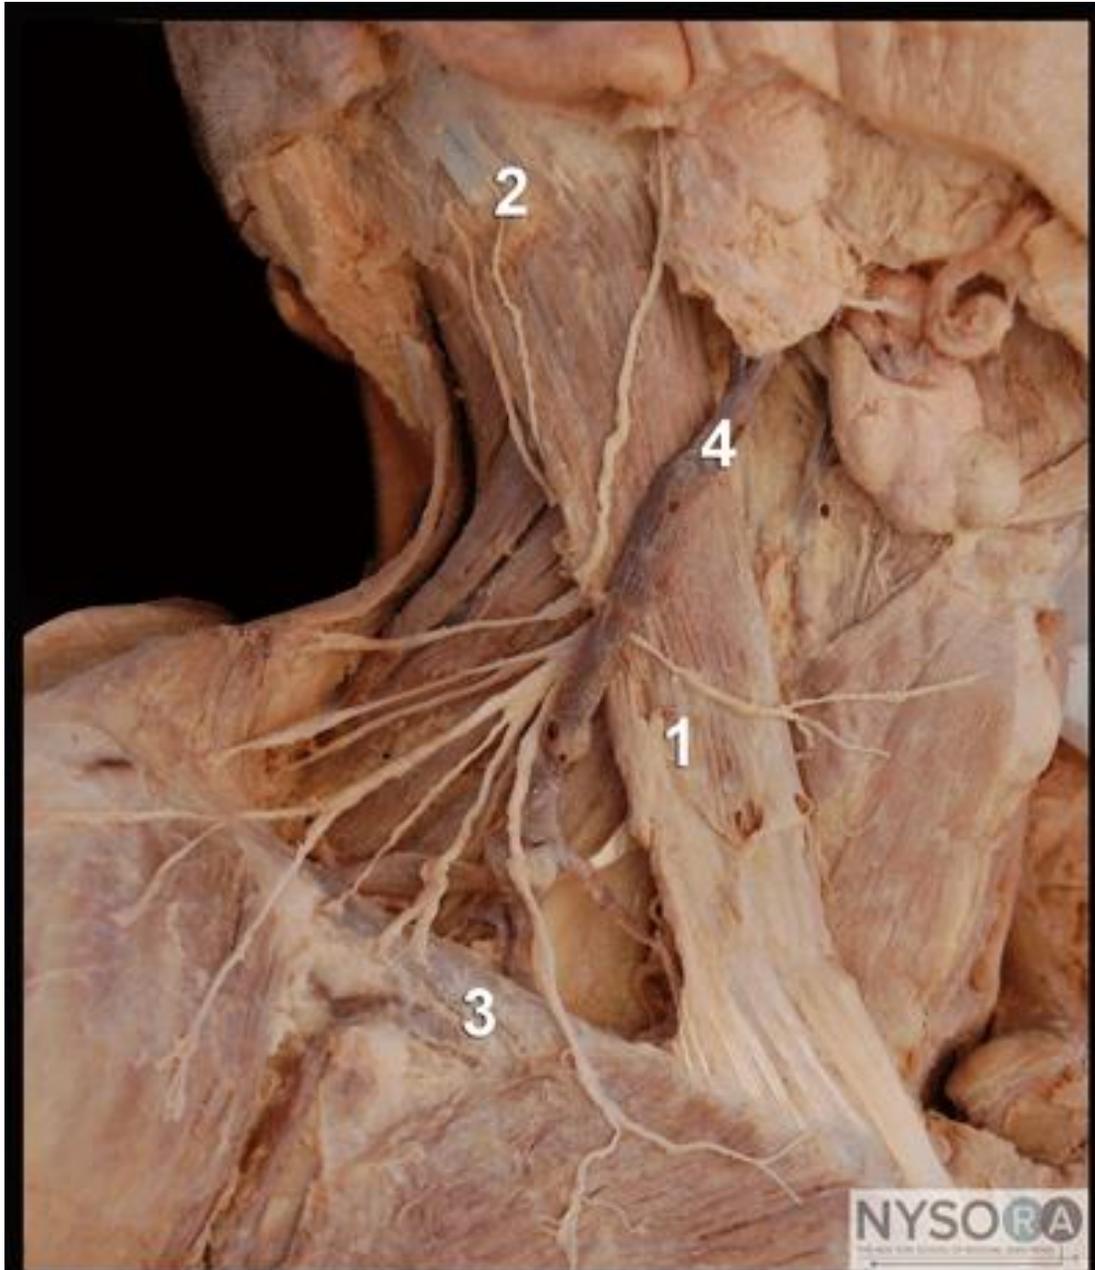

# Anterior Cervical Triangle / *Trigonum cervicale anterius*

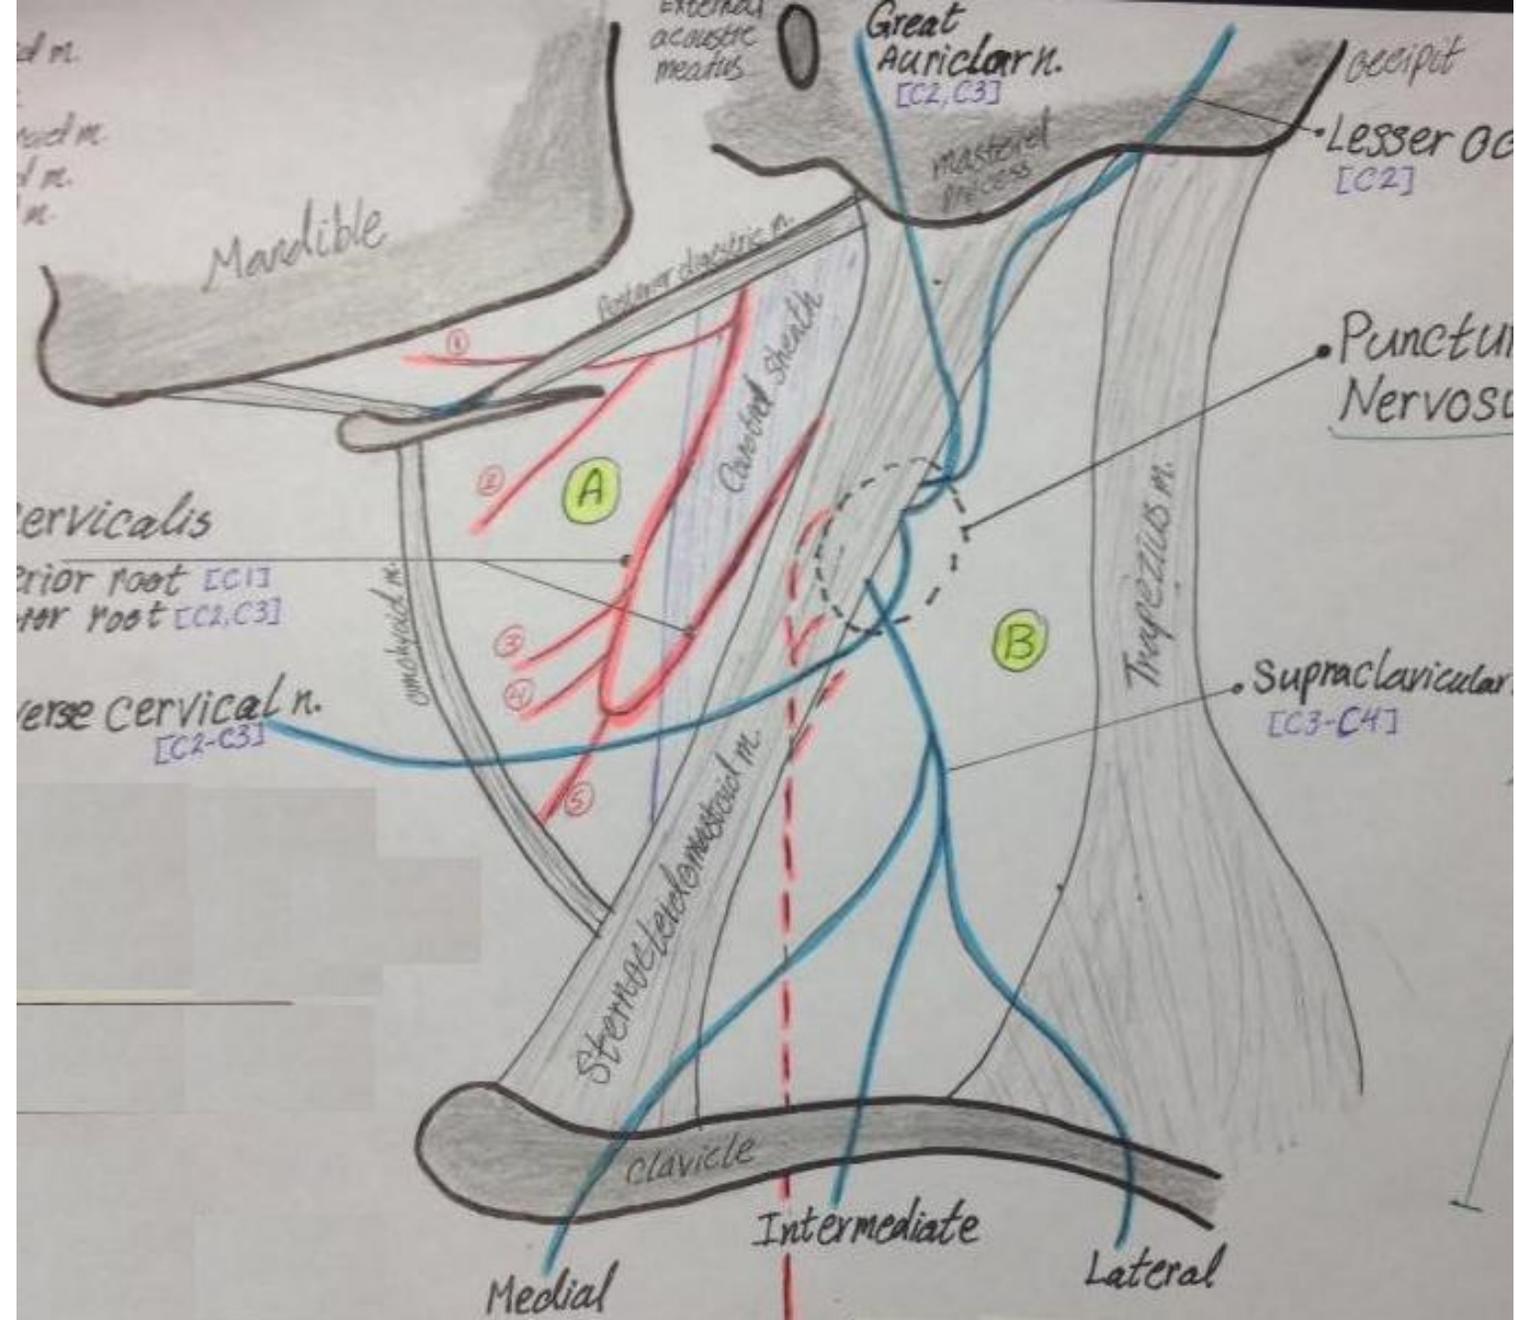

# Thyroid gland Palpation

# Lateral Cervical Triangle / *Trigonum cervicale laterale*

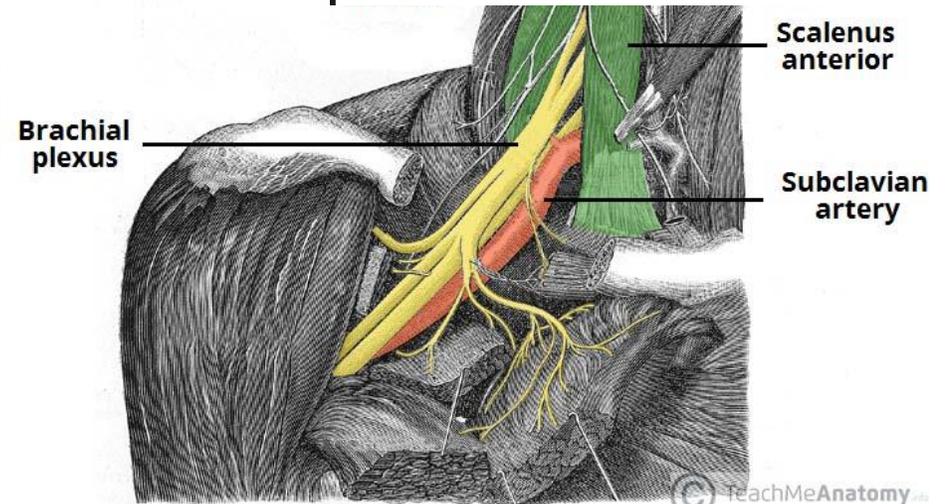

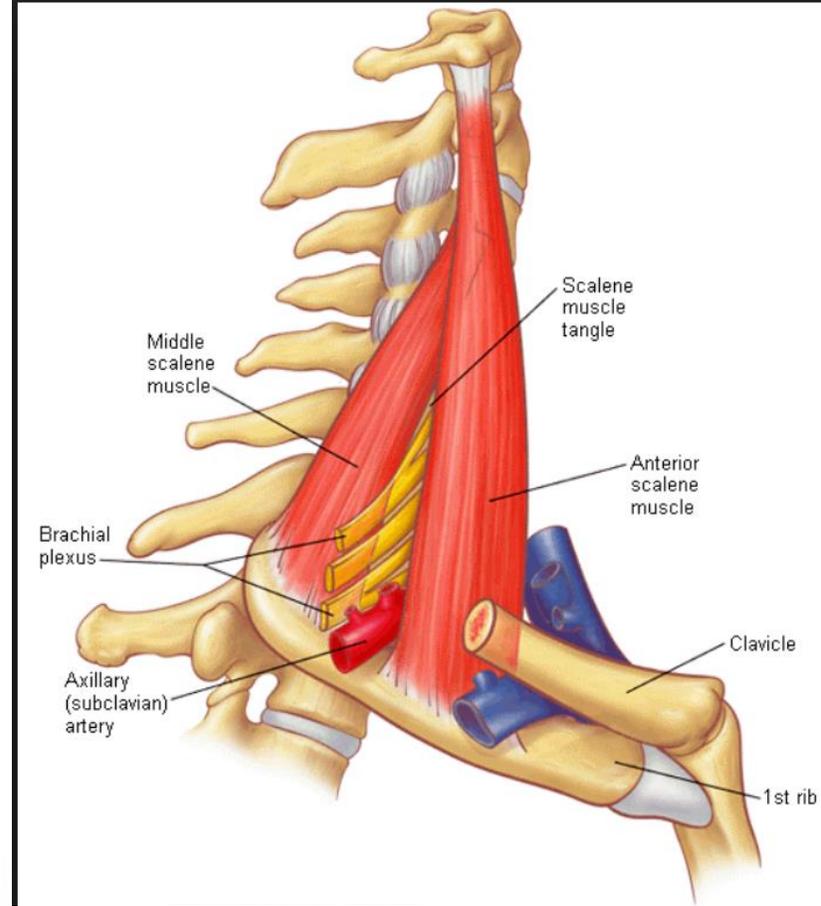

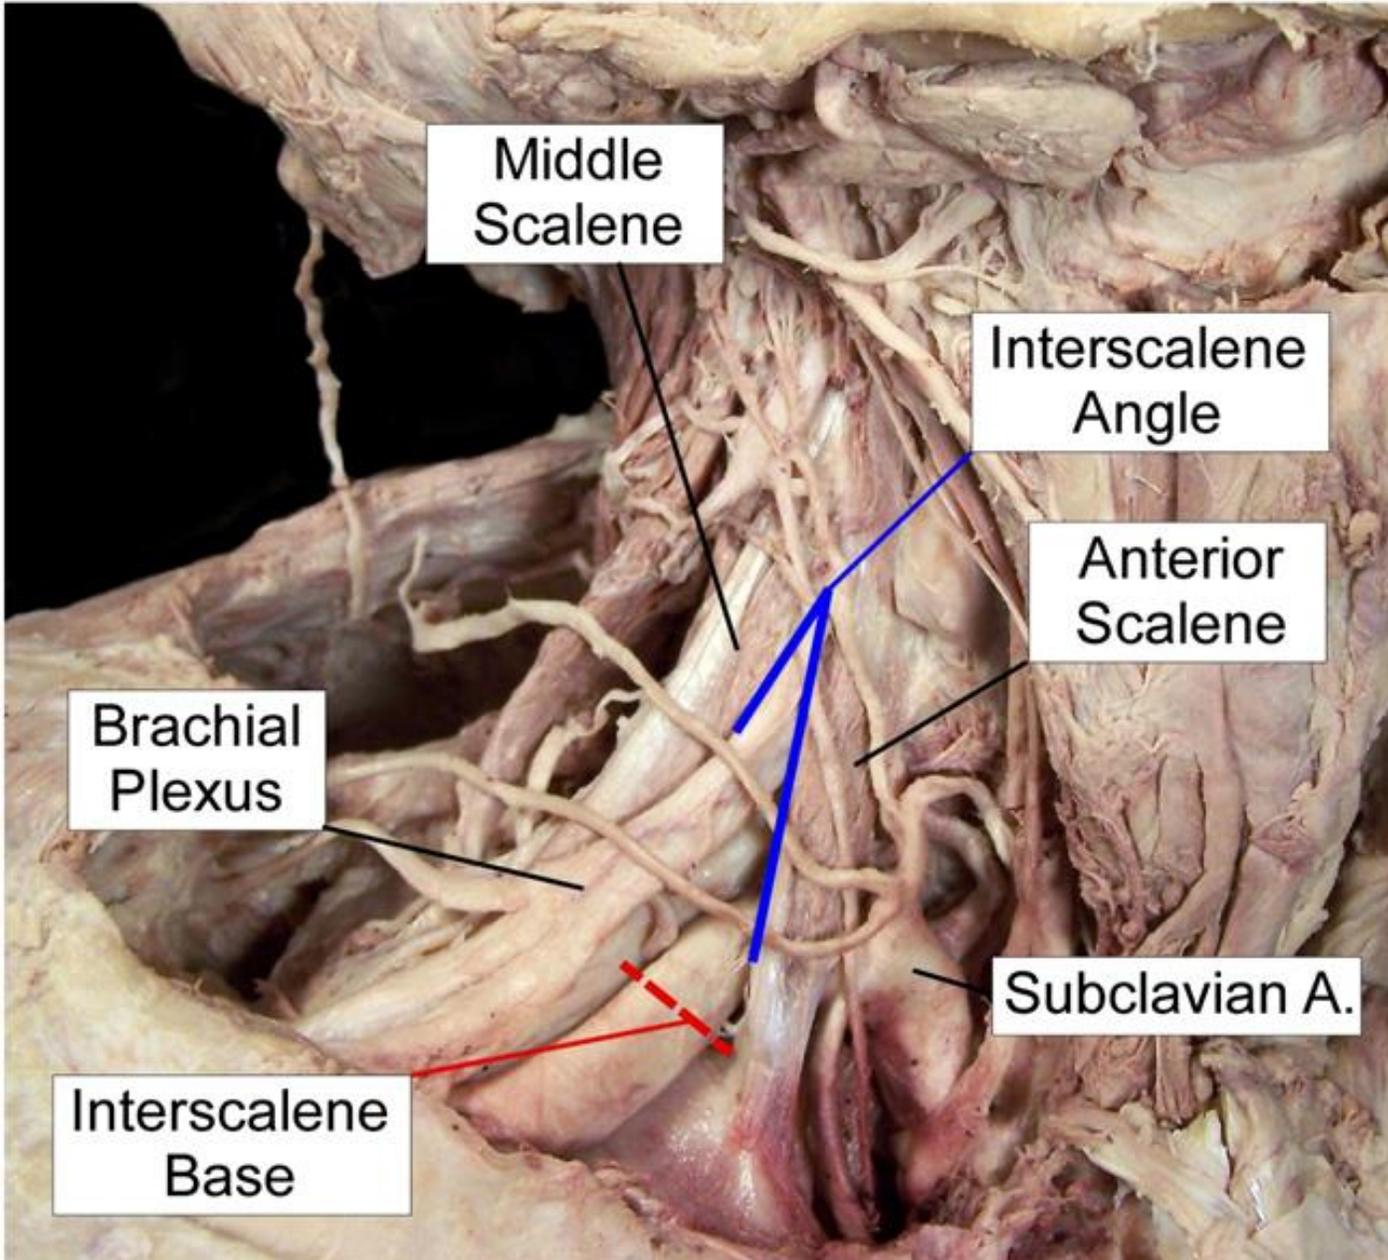

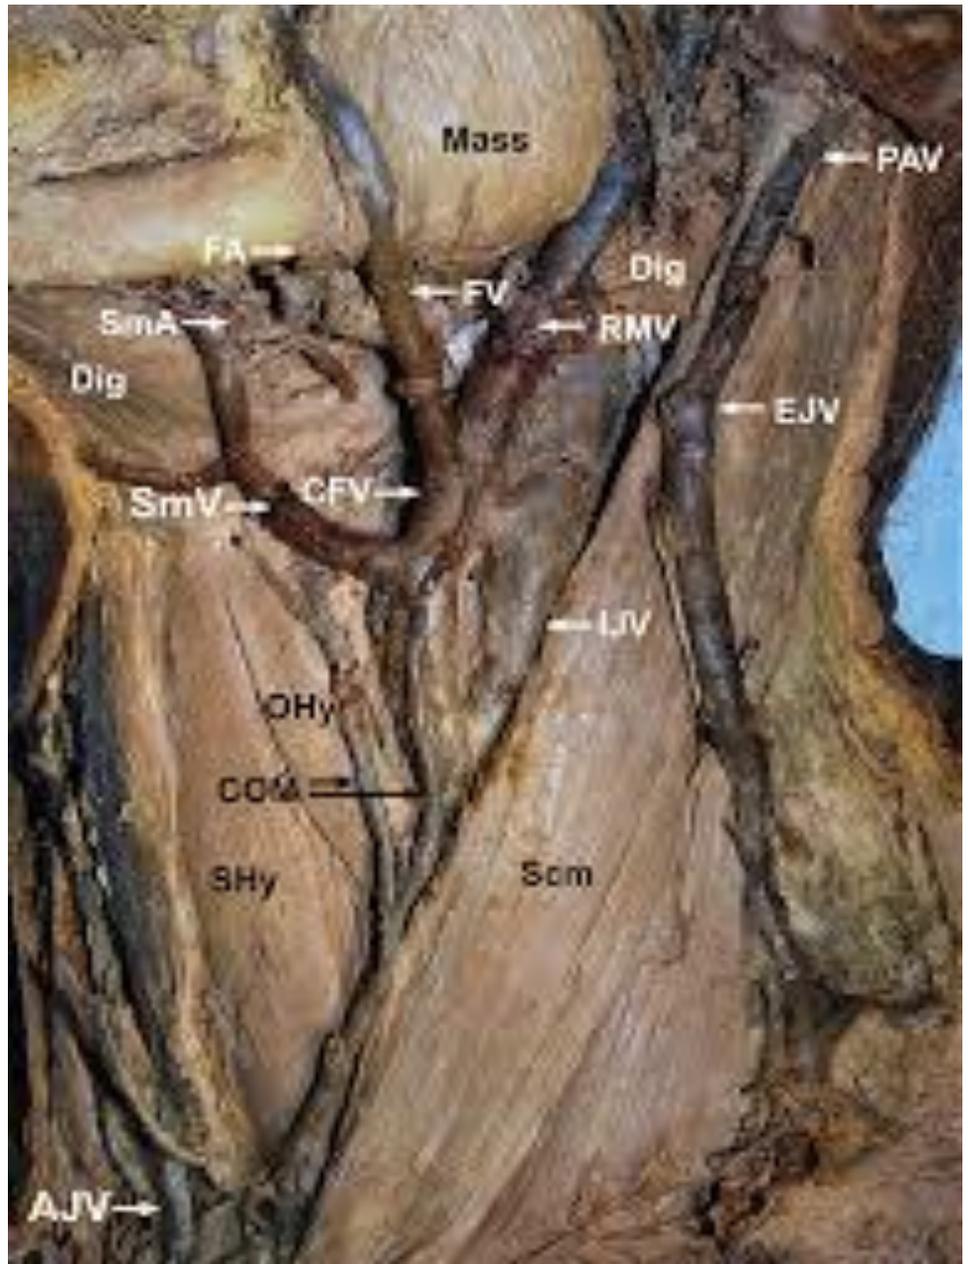

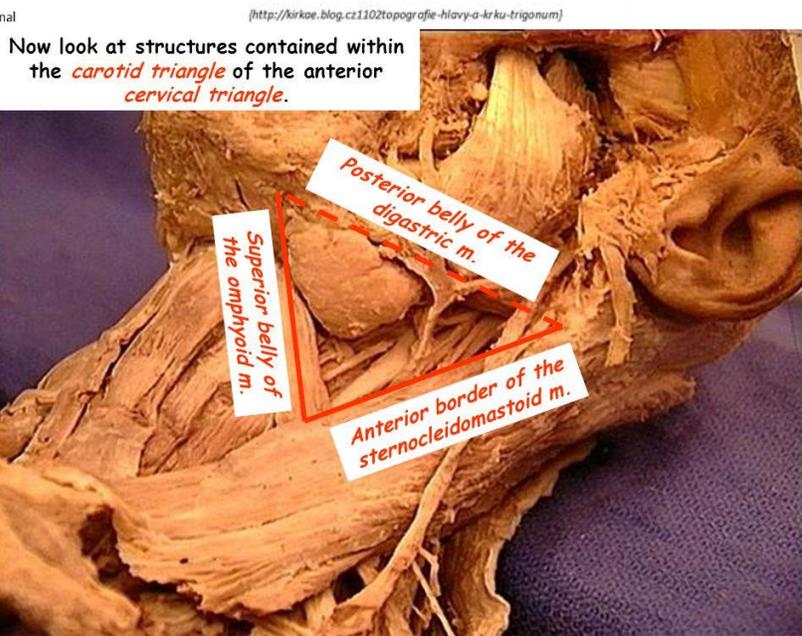

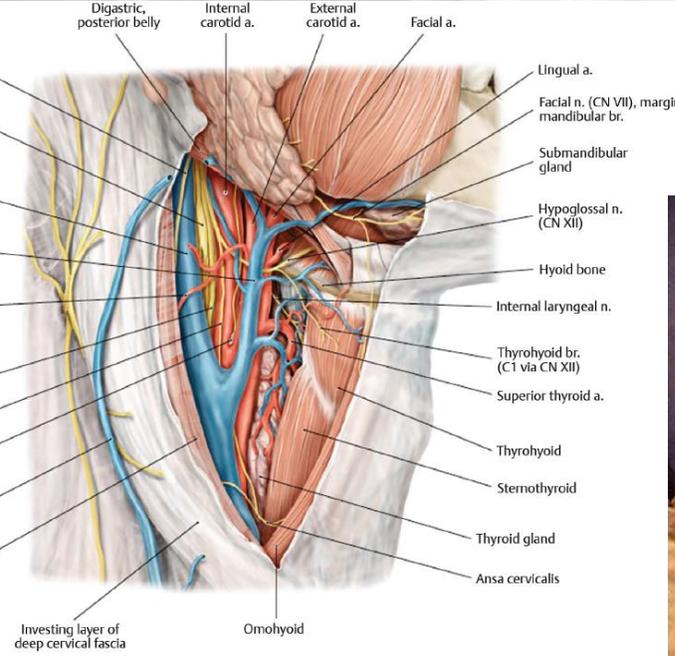

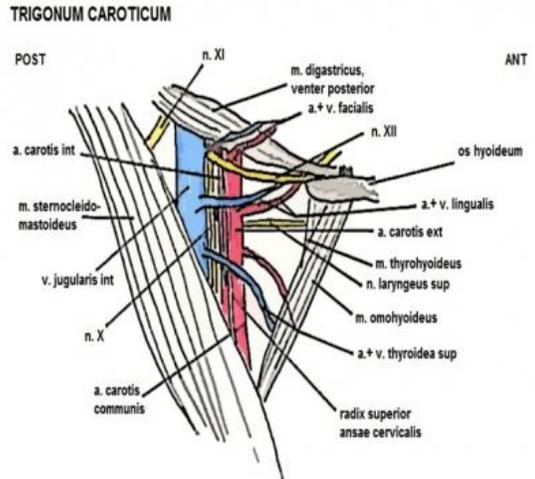

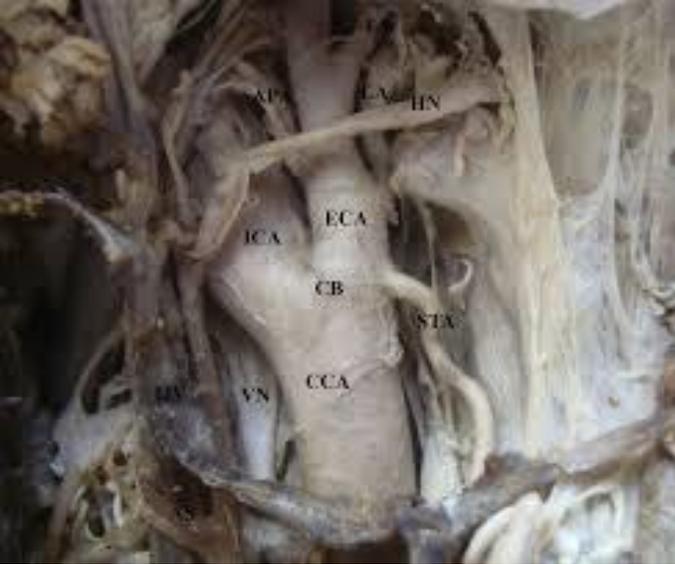

Azzat Al-Redwan

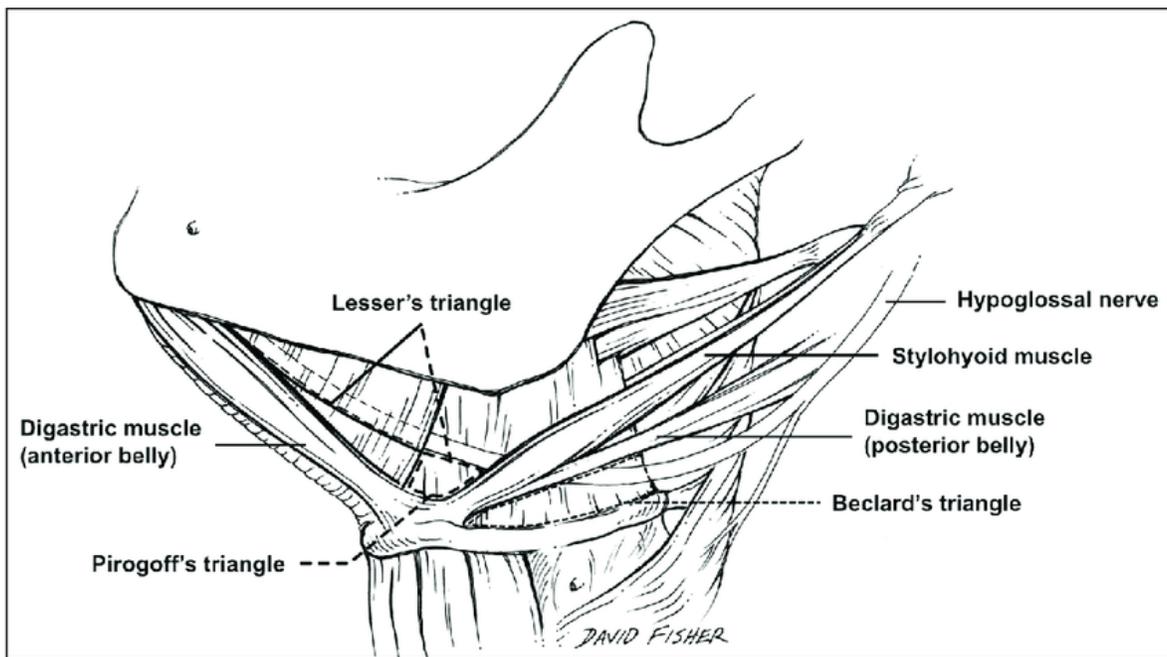

Phrenic n. [C3-C4-C5] \*Deep Laying an

# Scalenus Fissure / *Fissura scalenorum*

# Carotid Triangle / *Trigonum caroticum*

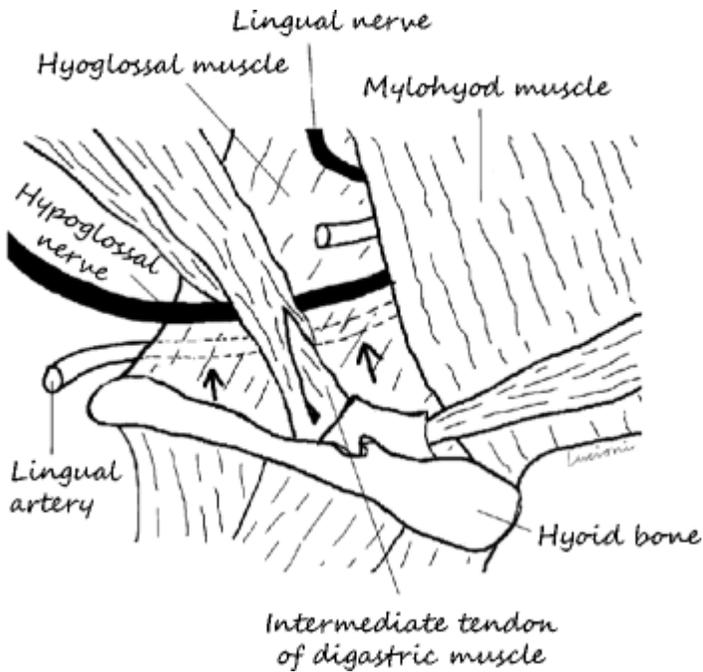

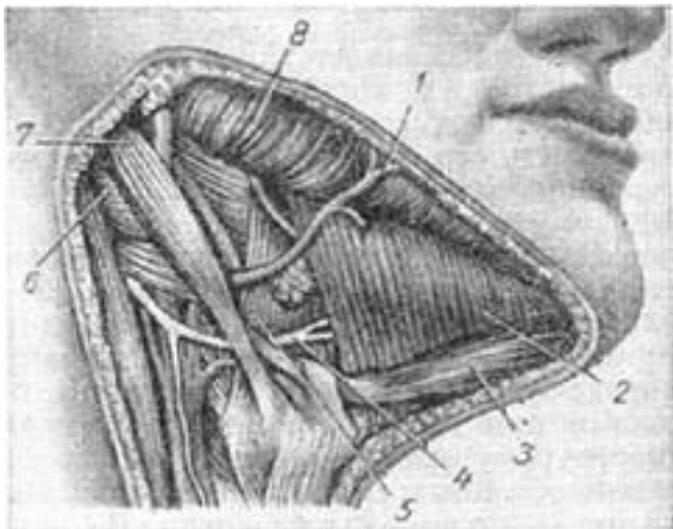

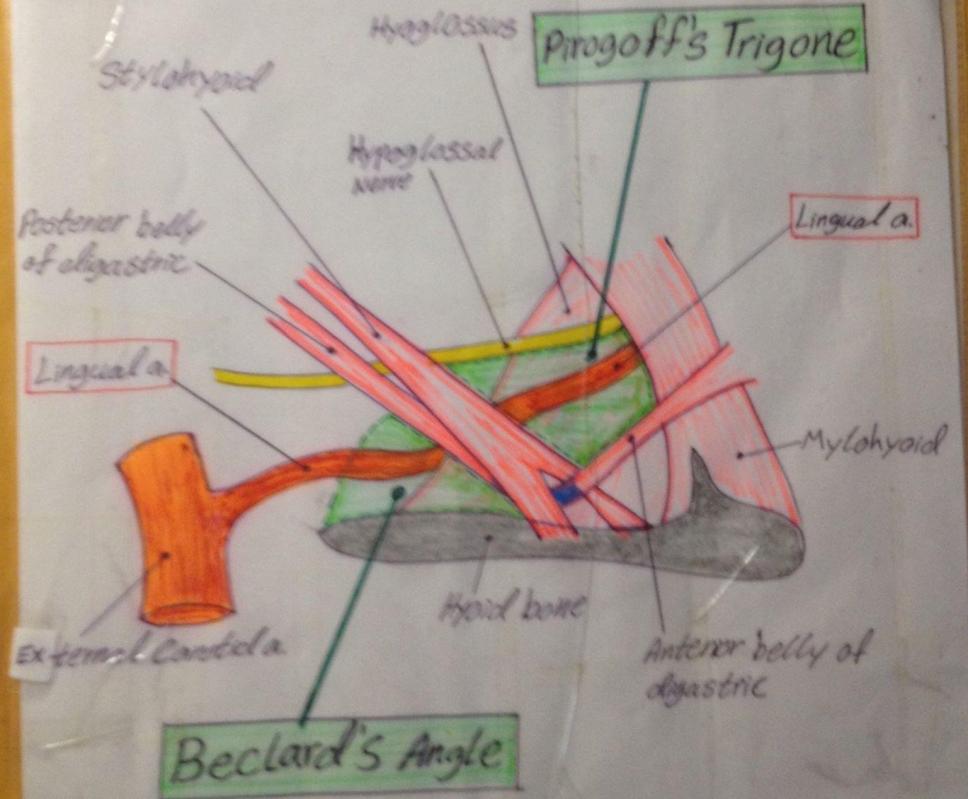

### Pirogoff's Triangle

- Boundary:
  - Inferior:** Intermediate tendon of digastric
  - Superior:** hypoglossal n. (XII)
  - Medial:** mylohyoid
  - Lateral:** Stylohyoid
- Shows: position of lingual a. (variable!)

### Beclard's Angle

- Boundary:
- Angle between digastric post. X hyoid bone
- Shows: position of lingual a.

# Submandibular Triangle / *Trigonum submandibulare*
